# NH15

ESCAPE HOOD

### PROTECTION FACTOR

Breathing zone (Oronasal)	Greater than 2000
Hood zone (Ocular)	Greater than 150
Neck size range	330-500mm (regular)
Donning time	less than 20s
Re-breathing CO <sub>2</sub> (machine test)	less than 1.0%
Re-breathing CO <sub>2</sub> (human test)	less than 2.0%

### BREATHING RESISTANCE

Inhalation at 85lpm	less than 50mm H <sub>2</sub> O
Exhalation at 85lpm	less than 10mm H <sub>2</sub> O

### BARRIER PERFORMANCE (SWATCH SAMPLES)

GB	Greater than 30 minutes
HD	Greater than 30 minutes

### SMARTMAN PERFORMANCE (TESTED AT ECBC)

GB	Greater than 30 minutes
HD	Greater than 30 minutes

### SIZING

Regular	75027-100	13" to 16" neck size
Extra small (hard to fit)	75027-104	12" to 13" neck size
Training	75027-105	All Sizes

### FILTER PERFORMANCE

Particulate penetration	P100 (Less than 0.3%)
-------------------------	-----------------------

### GAS AND VAPOUR PROTECTION

(NIOSH APR ESCAPE HOOD)

	Challenge Concentration (ppm)	Breakthrough Time (minutes)
Hydrogen Sulfide	500	>100
	1500	86
	5000	40
Ammonia	1250	>45
Cyanogen Chloride	150	>35
Cyclohexane	1300	>35
Formaldehyde	250	>45
Hydrogen Cyanide	470	>45
Nitrogen Dioxide	100	>45
Phosgene	125	>45
Phosphine	150	>45
Sulphur Dioxide	750	>35

### PACKAGING

Pack size	6"x4"x3.4" in (150 x 100 x 90mm)
Packaging type	4 layer foil barrier bag surrounded by reinforced nylon carrier
Weight (as carried)	1lb 7oz. (625g)
Packaged shelf life	5 Years when stored between 5°F & 105° F
User instructions	3 language User guide supplied (English, French, Spanish)

TECHNICAL DATA

Industry Certified Protection Factors  
 NATO standard protection factors ensure the hood has been rigorously tested.  
 NIOSH CBRN approved TC-146-0302.

**NH15**  
ESCAPE HOOD

## SIZE MATTERS

### SEE AND BE SEEN IN EVERY SITUATION

Power outages in emergency situations create poor lighting and visibility conditions. The NH15 provides a clear range of vision. The reflective label on the hood allows users to be easily seen by rescue teams with emergency lighting.

### COMPACT FOR QUICK ACCESS AND USE

Other escape hoods are bulky and cumbersome. The Avon NH15 features low-profile filters for reduced snagging, and reduced delay in donning. The streamlined design minimises the potential for grabbing when used in confined areas with anxious people.

### SIZE IS EVERYTHING

The compact Avon NH15 provides multiple belt and shoulder carry options. For officers with a crowded utility belt, the NH15 thigh-mounted carrying case delivers improved hood access in the event of an emergency.

### COMPETITIVE COMPARISONS

	AVON NH15	MSA Safe Escape	ILC Dover Scape	North ER2000	QuickPro
Packaged size	3.4"x4.0"x6.0"	6.7"x5.5"x12.2"	3.5"x10.2"x8.3"	4.5"x5.9"x10"	3.75"x4.75"x7.75"
Weight	625g (23 oz)	1029g (36.3 oz)	1016g (35.8 oz)	803g (28 oz)	635g(23.5oz)
NIOSH certified	TC-14G-0302	TC-14G-0276	TC-14G-0277	TC-14G-0281	No
Clear hood for user identification & all round vision	Full	Partial	Partial	Partial	No
Self adjusting harness	Yes	Yes	No Harness	No	No
Anti-fog coating on visor	Yes	No	No	Yes	Yes

Filter protrusion distance from face	2"	7"	3"	5"	5"
Balanced on user's head	Yes	No	No	Yes	No
Batteries	No	No	Yes	No	No

### USER TRAINING

The Avon NH15 contains a quick-don label to guide user in an emergency situation.

To support the introduction of the NH15 into an organisation, simple posters provide a constant message to users on the correct operation.

A training hood is available for additional end-user and emergency response team training.

CD and Training Presentation available for initial user training and new user education on the "do's and don'ts" of using the Avon NH15.

### AFFORDABLE PROTECTION

- NO annual OSHA fit test requirements
- The Avon NH15 is vacuum-packed in a multilayer barrier bag that provides 5 years of shelf life
- NO maintenance or inspection requirements = lower cost of ownership
- Protect more people with your budget

**20**  
**DON IN LESS THAN 20 SECONDS**  
Achieve critical CBRN respiratory protection within 20 seconds of opening the protective packaging and donning the reflective hood.

**15**  
**15 MINUTES OF PROTECTION**  
Provides wearers with respiratory, vision and facial CBRN protection for a minimum of 15 minutes to allow sufficient time to evacuate from a contaminated area.

**5yr**  
**5 YEAR SHELF LIFE**  
With minimal packaging, no maintenance, and low cost of ownership, the NH15 can provide 5 years of maintenance-free protection.
