

BA3A BALLISTIC HELMET TECHNICAL SPECIFICATION

PERFORMANCE

NIJ THREAT LEVEL

- Meets NIJ IIIA requirements when tested in accordance to the "National Institute of Justice Standard NIJ 0106.01 with 0.108.01 Level IIIA Threats (9mm FMJ and 44MAG @ 1400-1450ft/sec).

PHYSICAL PROPERTIES

- Shell Material: hybrid construction of Advanced Aramid and Glass reinforced Thermoplastic Composites materials in an Avon proprietary molding process that is designed specifically for maximizing the ballistic performance of these materials.
- Shell cut: PASGT style (including a brim in the front) or a tactical style (with no brim).
- Color: Black, Brown, Tan, & Green
- Sizing: Universal (one size fits most)
- Shell weight: 2.4 lbs. (shell, paint and edge trim)
- Accessories: DK6H.150 & DK6H.150-S face shields & helmet storage bag

SUSPENSION & RETENTION SYSTEM OPTIONS

- Standard (Net) Retention & Suspension
- Comfort Pad Retention & Suspension (Nominal Thickness 12.7 mm)
- Dial Adjustable Retention & MCIP Pads (PASGT cut only) (Nominal Thickness 25.4 mm)
- Team Wendy CAM FIT Dial & D30 Trust Stealth 7 Pad Set
