

# MITR™-M1 HELMET CLIPS

## MULTI & EXFIL ATTACHMENTS

### INTRODUCTION

Helmet clip attachments offer a secure, low-burden system that enables rapid integration with tactical helmets, improving operational readiness and reduced user vulnerability.

- Clips attach directly to helmet rails for quick helmet integration without requiring removal of head protection and does not require a chin strap extender.
- Modular fit across multiple helmet types and brands including Team Wendy's core product range.
- Two options available: Multi and EXFIL.
